*By Authority of The Director of
VCA Europe S.r.l.*

Date of approval: 21 MARCH 2022

VEHICLE CERTIFICATION AGENCY Europe S.r.l

Registration Number: XSY001577

This certificate is issued pursuant on the conditions below:

*The facilities shown on this certificate have been appraised in accordance with VCA Europe S.r.l. procedure PC017 to indicate their suitability for official witnessed tests and/or COP purposes to VCA Europe S.r.l. engineers. This certificate does not constitute any formal approval, and recognition by third parties for this or any other purpose is entirely at their own risk. **The appraisal is valid for this facility for a maximum period of five years from the date of approval, but VCA Europe S.r.l. reserves the right to reassess the entry if witnessed tests are not routinely undertaken. The facility is obliged to inform VCA Europe S.r.l. of any major changes to equipment, procedures or personnel within this 5 year period, and at its discretion VCA Europe S.r.l. may temporarily or permanently remove the facility from the register of certified facilities without notice until a satisfactory reappraisal has been completed. Application must also be made to extend the use of the facility to cover additional or new Directives and Regulations.***

This certificate is issued by and is the property of the Vehicle Certification Agency Europe S.r.l.,
POINT- Polo per l'Innovazione Tecnologica, Via Pasubio 5, 24044 Dalmine (BG)- Italy
and is to be returned on request.
